OBJECTIVE

Web developer with experience building responsive emails on Salesforce Marketing Cloud and success following agile scrum project management methodology. Looking to apply knowledge of JavaScript and other client side technology to reach innovative solutions to software development problems

SKILLS & ABILITIES

Programing web: HTML5  AmpScript  JavaScript  CSS

Frameworks:  Sales Force Marketing Sales Cloud  BootStrap CSS framework

Software:  GIT  Microsoft Teams  Visual Studio IDE  Atom IDE  PhotoShop

EXPERIENCE

Web Developer IV, Infosys

2019 – present

Sunnyvale, CA

Front End Software Developer: SCSS, Angular2, HTML, JS, TypeScript

- Involved in declaring and deploying Angular2 modules.
- Connecting API and web services to front end of single page applications.
- Experienced in deploying multiple style sheets to convey content according to viewport and employing media queries.

SFMC CRM HTML Developer, Bing Ads

2018 – 2019

Seattle, WA

SalesForce Marketing Email Developer: SalesForce SFMC, CADE, EPNY, HTML

- Developed and deployed marketing campaigns end to end alone.
- Constructed on average 60 emails in various markets alone during an agile sprint regularly over a period of a year.
- Trained new developers on the migration of content blocks from classic content builder to content builder.

EDUCATION

Code Fellows – Seattle, WA – Advanced Software Development in Full-Stack JS

- Build full-stack web applications with server-side Node.js and modern, client-side, front-end libraries and frameworks, including React. Throughout this intensive course, you will study data structures and algorithms, professional

software development techniques, and established industry best practices as you advance your skills in full-stack JavaScript.

Excelsior College – Albany, NY – Bachelors of Computer Science

- Strong background in fundamentals of computer programming and complementary liberal arts background for improved problem-solving. GPA of 3.8, diploma completed in 2018.
